Participants will be assessed on their understanding of the anatomy and physiology for the human Skeletal, Muscular and Integumentary systems.

Anatomy and Physiology | Science Olympiad

Anatomy and Physiology is an event which tests students' knowledge about the anatomy and physiology of a human body. Division B and Division C will both typically concentrate on three systems, which change each year. Topics may include diseases in those systems as well as the general anatomy and function of each system from the cellular to the holistic scale.
