The MT1 421E Hydraulic Power Base Exam Chair uses a manual back for a quick and smooth recline to the flat position with footrest extended and a more cost-effective electro-hydraulic power base, while still offering all the quality of MTT's full feature chairs. The precision gas spring counterbalances the patient in recline and aids...

Hydraulic Power Base Exam Chair - MT1 421 E Series

22. What is the purpose of hydraulic motor and how does it differ from the hydraulic pump. The motors are actuated by the fluid. The fluid forces the motor to create the rotary motion. The motor is mechanically linked to the load and develops torque. So a hydraulic motor converts hydraulic energy into mechanical energy.
